

DESIGNERS

DESIGNERS

Baldanzi & Novelli designers

“ The extraordinary thing I have discovered in Lithuania is the desire to create things. While working together hand in hand our two cultures mix and complement each other resulting in a third element – an energy that cannot be found elsewhere.

Baldanzi & Novelli's collaboration with Narbutas began in 2013 with mutual interest. Narbutas were interested in Baldanzi & Novelli's more than 30 years of experience, great design culture, originality, and familiarity with cutting-edge technology, while the designers were attracted to the company's clear-cut vision and recognizable style.

Christina Strand and Niels Hvass

“ We met the NARBUTAS team and felt that the company's strategy fitted into our way of working. We developed a good relationship and met great enthusiastic people who want to move the company forward.

Strand + Hvass have many years of experience in the world of design. Over the years, their style has developed to become modern and innovative, yet based on classic values and a timeless aesthetic. They have a bold vision of the value and impact of design on today's world and create unique products to match.

CHRISTINA STRAND AND NIELS HVASS

Gediminas Juška

“ I associate Narbutas with professionalism, solidity, and consistency. The company's products stand for high quality and a modern, elegant design.

Gediminas Juška began working with Narbutas in 2000, soon after completing his architecture degree at the Vilnius Academy of Arts. Since then his creations for the company have won the Grand Prix at the Furniture 2001 Fair, the Main Prize of Good Design 2012, and other prizes at national and international events. Juška has always specialized in office furniture and interiors, and his achievements have earned him recognition in Lithuania and beyond.

Roberto Lucci and Paolo Pampanoni

Roberto Lucci has been designing for over half a century, always driven by the notion that design is creative problem-solving. Or, as he puts it:

“ Creativity alone is not design and problem solving without creativity is not design either.”

His partner Paolo Pampanoni is an Umbria-based architect specializing in architecture for work and design. His leading principle is the “performance principle”: every aspect of the design of space or products must lead to a formal, functional, technical or economic performance.

ACTIVE

An easy way to stay
active at work!

ACTIVE desking system can be best described
in two words: functionality and quality.

18

19

* - availabe only in 800 width

Easy to customize

The desk height can be adjusted by pressing
a selected button: a memory position button
with a display, or up and down controls.

Feet design

Choose from three types of metal feet.
All the designs look minimalist, light
and with different elegant accents.

Anti-collision feature

Both the 2-level and 3-level feet sensor will automatically stop the desk's movement if it senses an obstacle in its path. The anti-collision feature reduces the likelihood of damage should the desk collide with a hard object.

CONFERENCE
& MEETING
TABLES

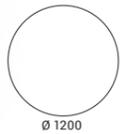

Design by Roberto Lucci & Paolo Pampanoni

Exclusive meeting tables

The Italian design of the tables is based on the harmony of straight and curved lines.

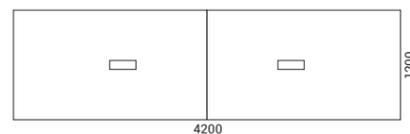

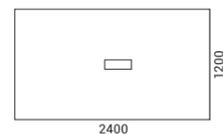

Quality is in the details

The rectangular tables come with soft closing grommet, beautifully framed in metal and concealing the box for wire management. This functional detail becomes invaluable in long meetings.

60

61

The elegant three-part curved steel legs are crafted using difficult technology and are the ultimate distinctive feature of the system. The solid thick tabletop increases the sturdiness and the visual impact of the tables.

CONFERENCE
& MEETING
TABLES

PLANA

PLANA

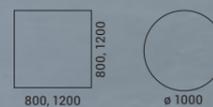

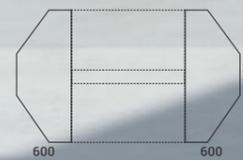

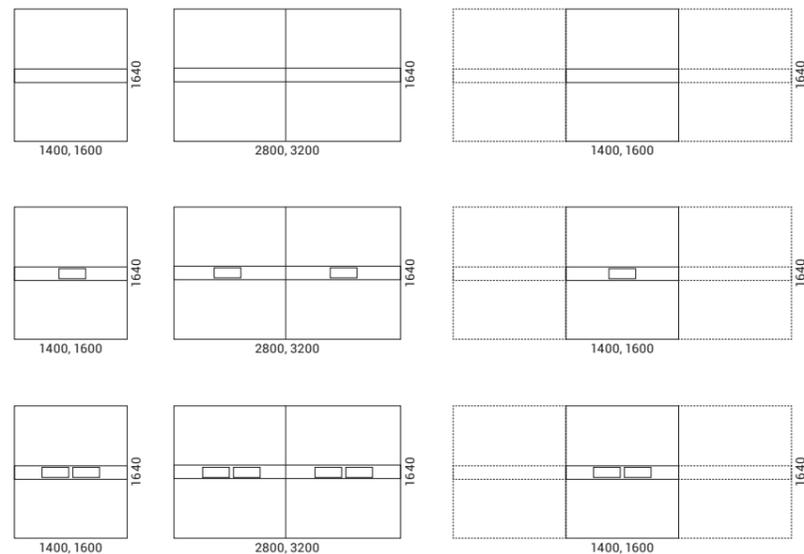

A universal choice

Intelligently designed solutions allow you to create aesthetically pleasing and well-organized meeting areas.

64

Special desk inserts are functional and playful elements which can be of a different colour than the desktop and can efficiently conceal internet and power boxes. In addition, each cable under the table passes through horizontal and vertical cable ducts.

Meeting tables can accommodate 6 to 12 people but there is an option of setting up a desired number of workplaces using additional side panels.

Choose decorative acrylic glass inserts and handles for your cabinet to add a nice touch to it.

NOVA

CABINETS

BOXI

Minimalist style – unlimited possibilities

BOXI storage tower is a simple and universal solution designed to accommodate all office essentials for the daily needs in the office.

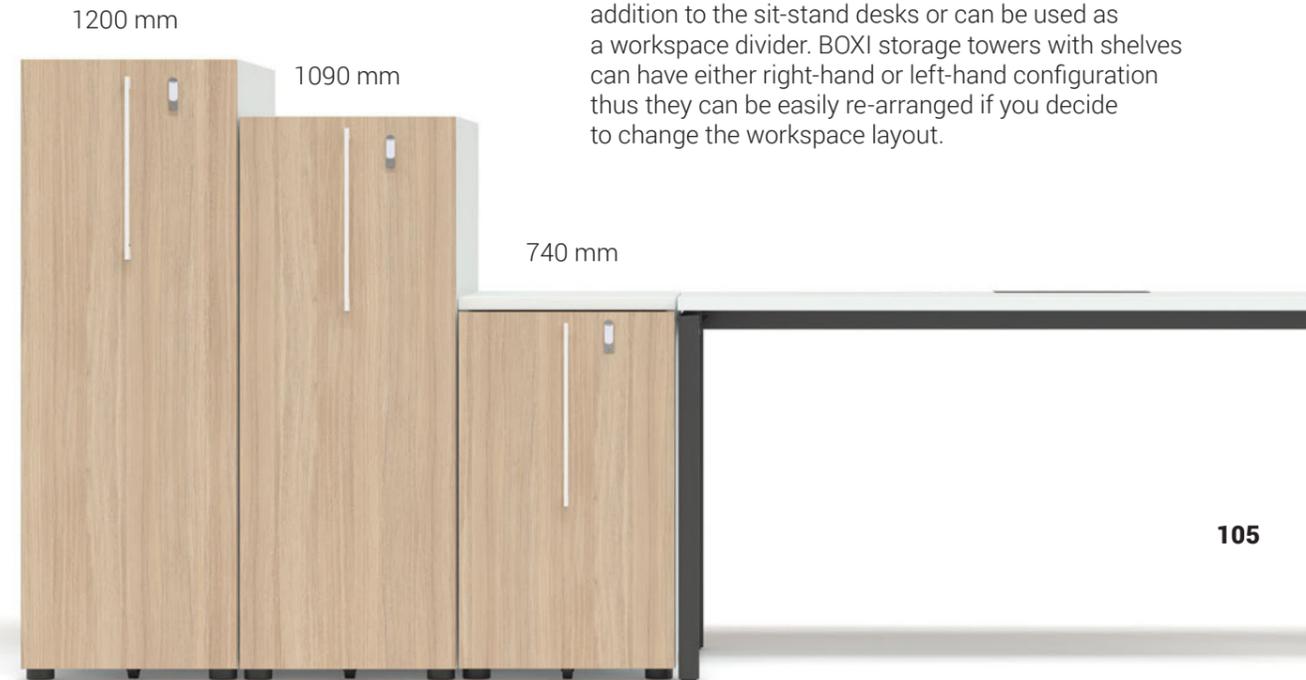

104

BOXI

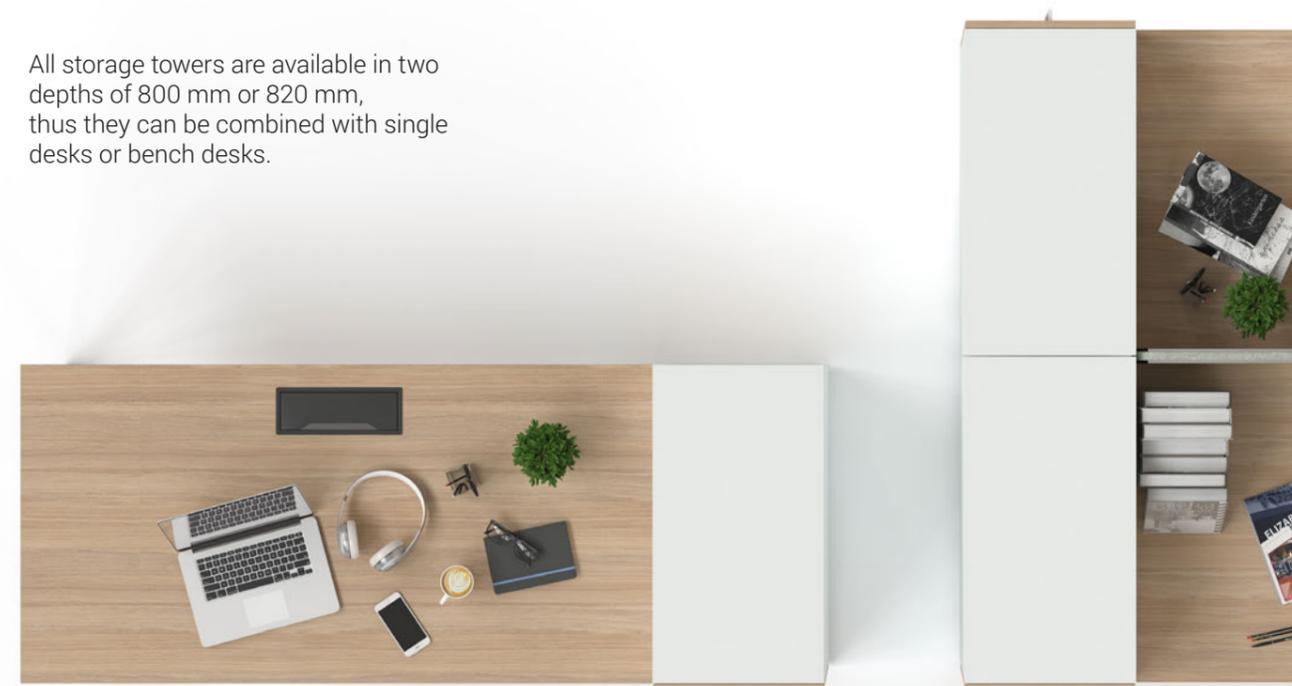

Flexible arrangement of work spaces

Choose a preferred tower height: a 740 mm storage tower can serve as an extension to a fixed-height desk, whereas 1090 mm or 1200 mm options will be a great addition to the sit-stand desks or can be used as a workspace divider. BOXI storage towers with shelves can have either right-hand or left-hand configuration thus they can be easily re-arranged if you decide to change the workspace layout.

105

All storage towers are available in two depths of 800 mm or 820 mm, thus they can be combined with single desks or bench desks.

BOXI

TOWERS

Make the most of all available options

Choose spacious shelves or universal file drawers, small shelves with an upholstery lining or small drawers for storing small items. BOXI storage towers with USB or plug sockets will allow you to charge your mobile devices.

Visual versatility

Mix and match various melamine covers or use a planter box to transform the BOXI storage towers into green islands with flourishing greenery which will be a great way for employees to rest their eyes during a break.

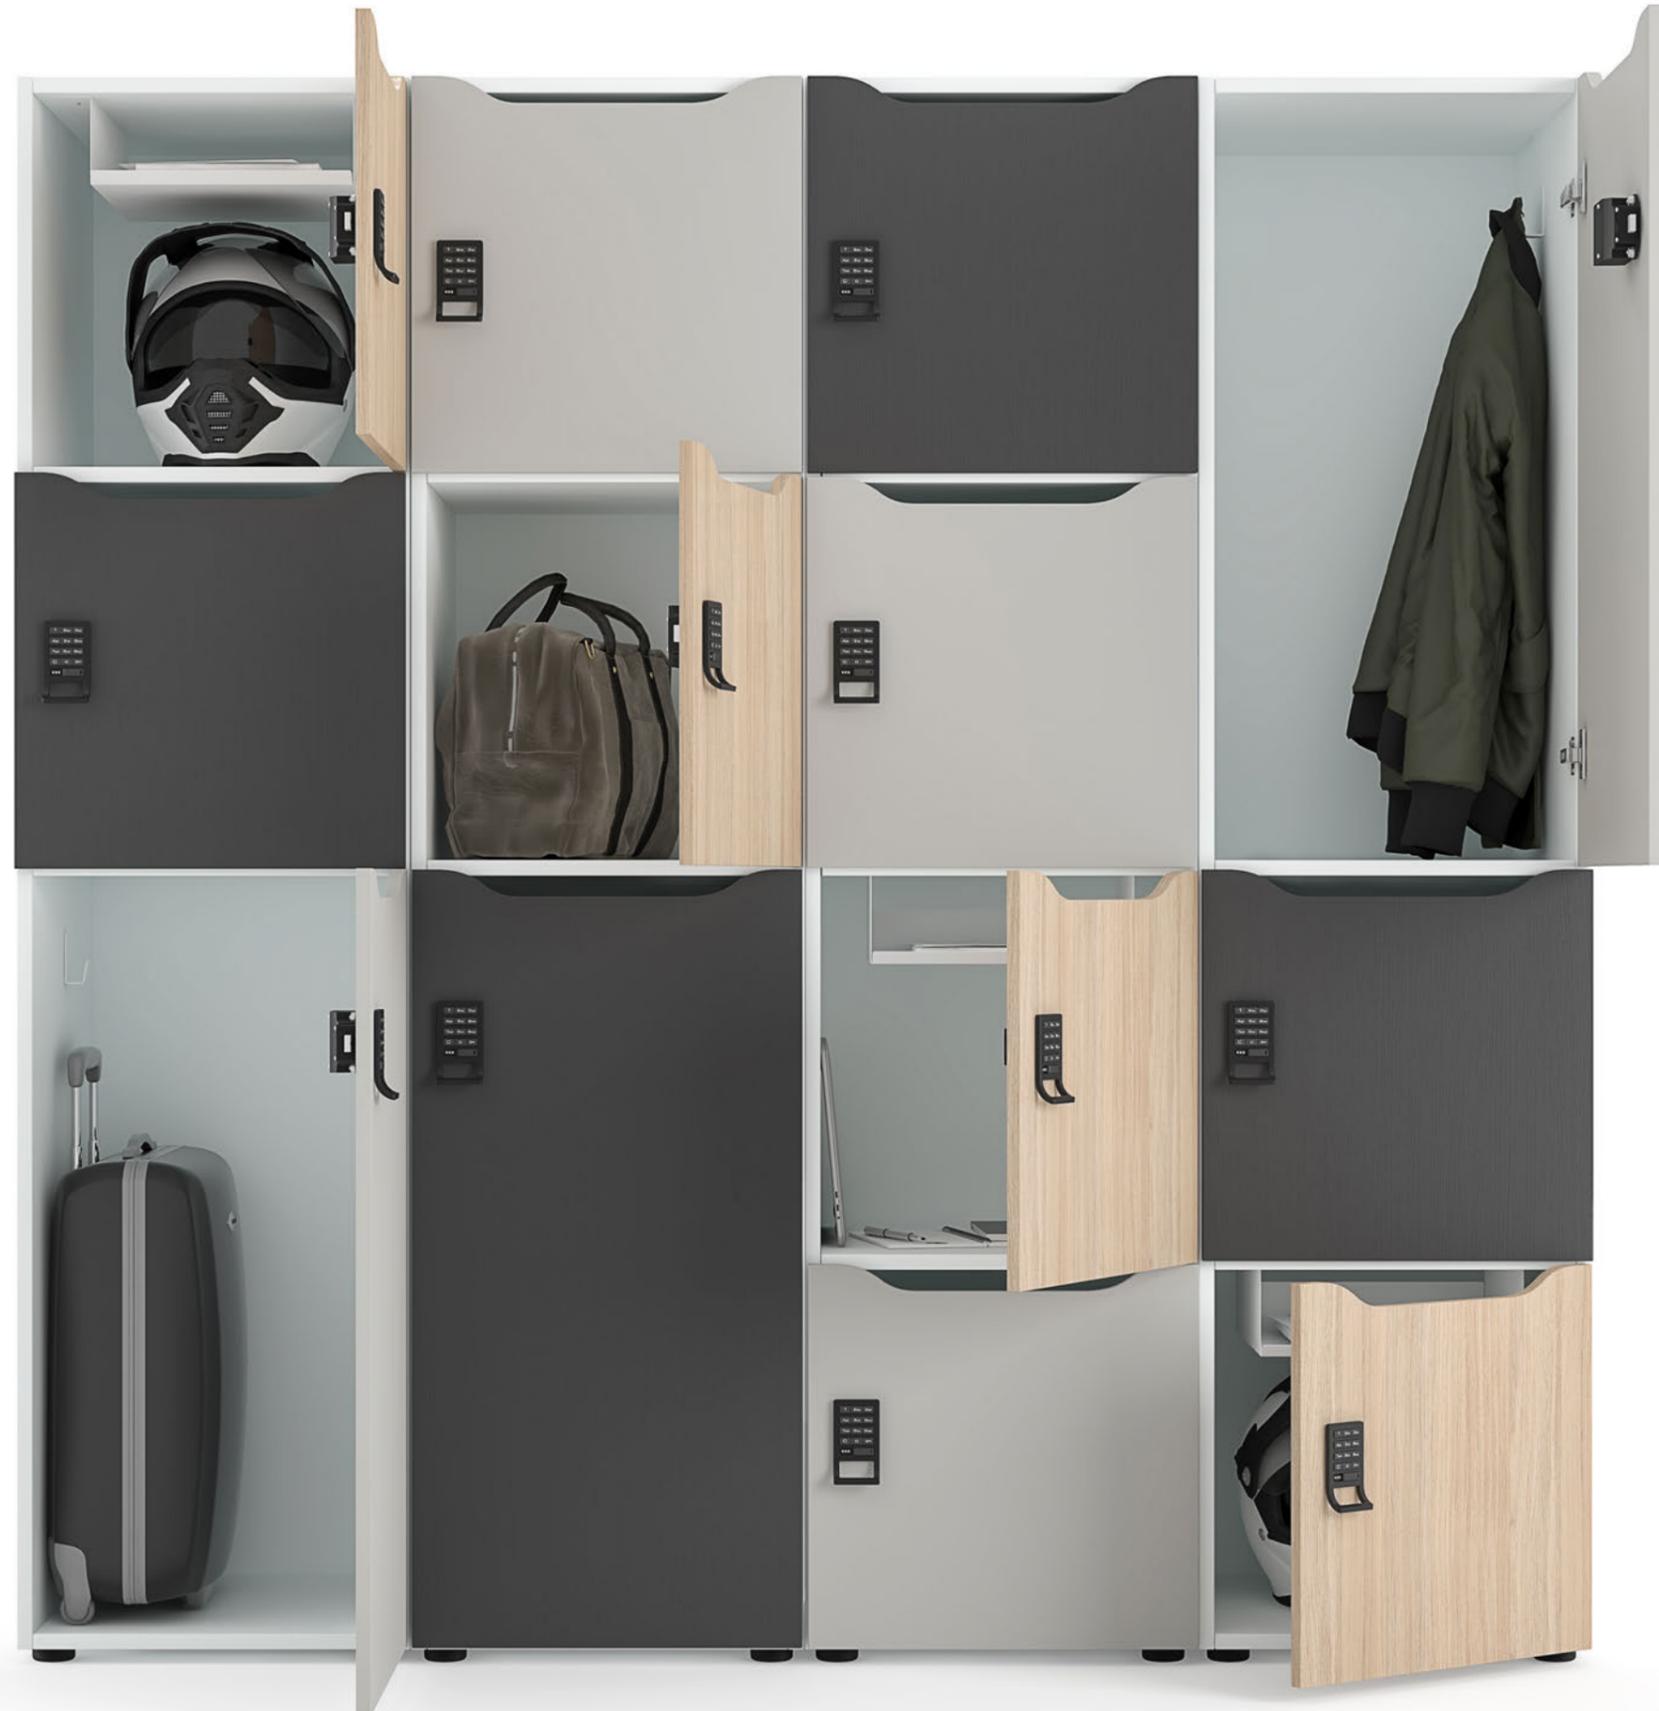

Essential attribute for shared spaces

Modular locker cabinets are a versatile solution for secure personal and office items storage, temporary or all-day use. CHOICE lockers can be useful for both resident and mobile workers or office visitors.

108

Modular system

Create the most suitable combinations for various spaces by combining CHOICE locker modules of the same height (917 mm / 1367 mm / 1817 mm). Also, you can combine doors of two heights (450 mm / 900 mm) and different types – the standard and with cut-out for mail or air circulation.

109

Personalized lockers

A variety of sizes and box types fulfils different needs – from storing small personal and work tools to big-size items. Customize your locker by using additional items such as metal shelves, name card holder or hook for clothes.

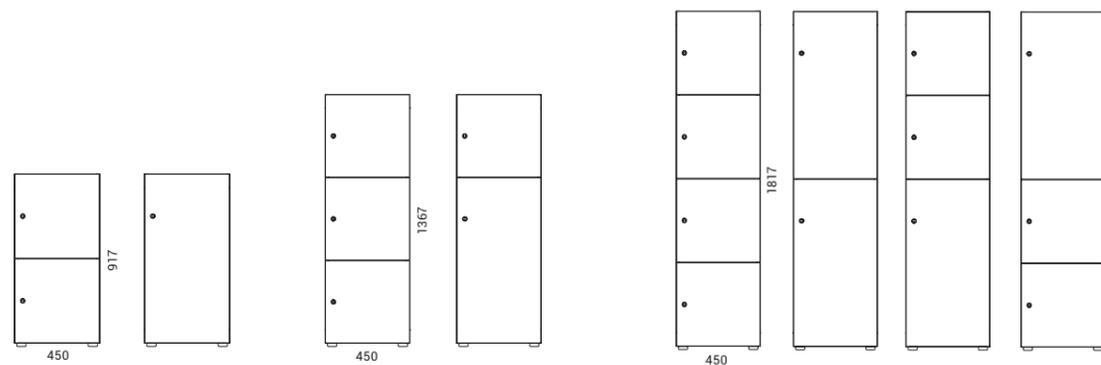

4 types of locks

Along with the traditional key locking, we offer also a combination lock and electronic locks (opened by a code or a card). Lockers with electronic locks can be assigned for personal use or be used by different users for temporary needs.

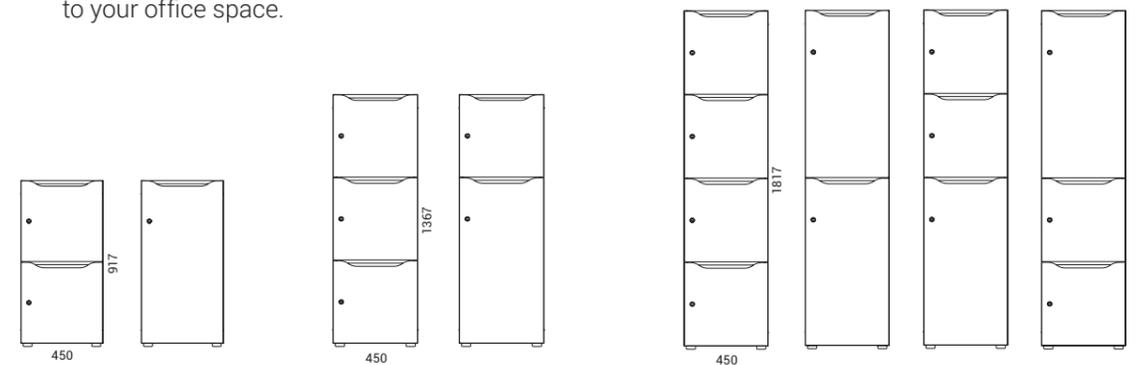

Colourful combinations

Locker is a great tool to express your company's culture. It could be the place where you add brand colours to your office space.

PODS

SILENT ROOM

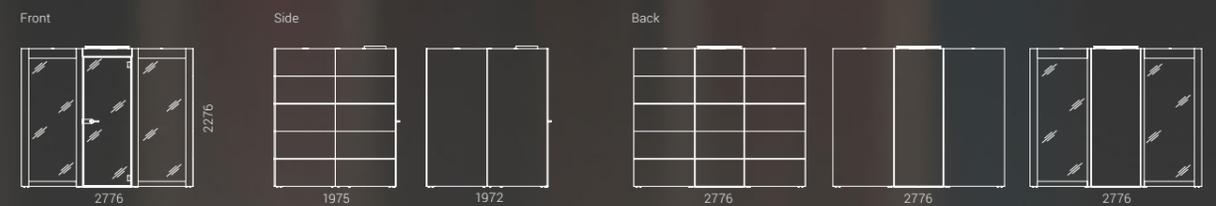

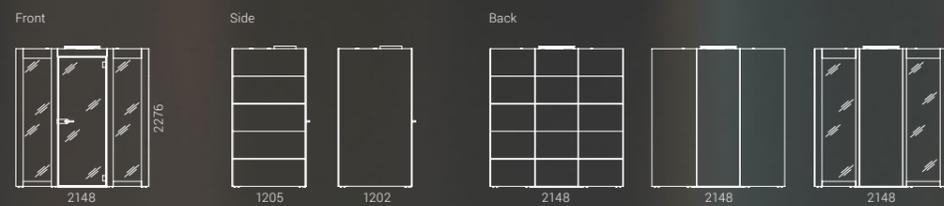

Choose SILENT ROOM acoustic pods to create functional work areas by dividing or opening interior spaces as necessary. This piece of furniture can be set up in the middle of the office space, near the walls or partitions or inside a wall niche maintaining a clearance of just 30cm at the top for air circulation.

ACOUSTIC
PODS

S

L

M

SILENT ROOM

SILENT ROOM

Less noise, less chaos

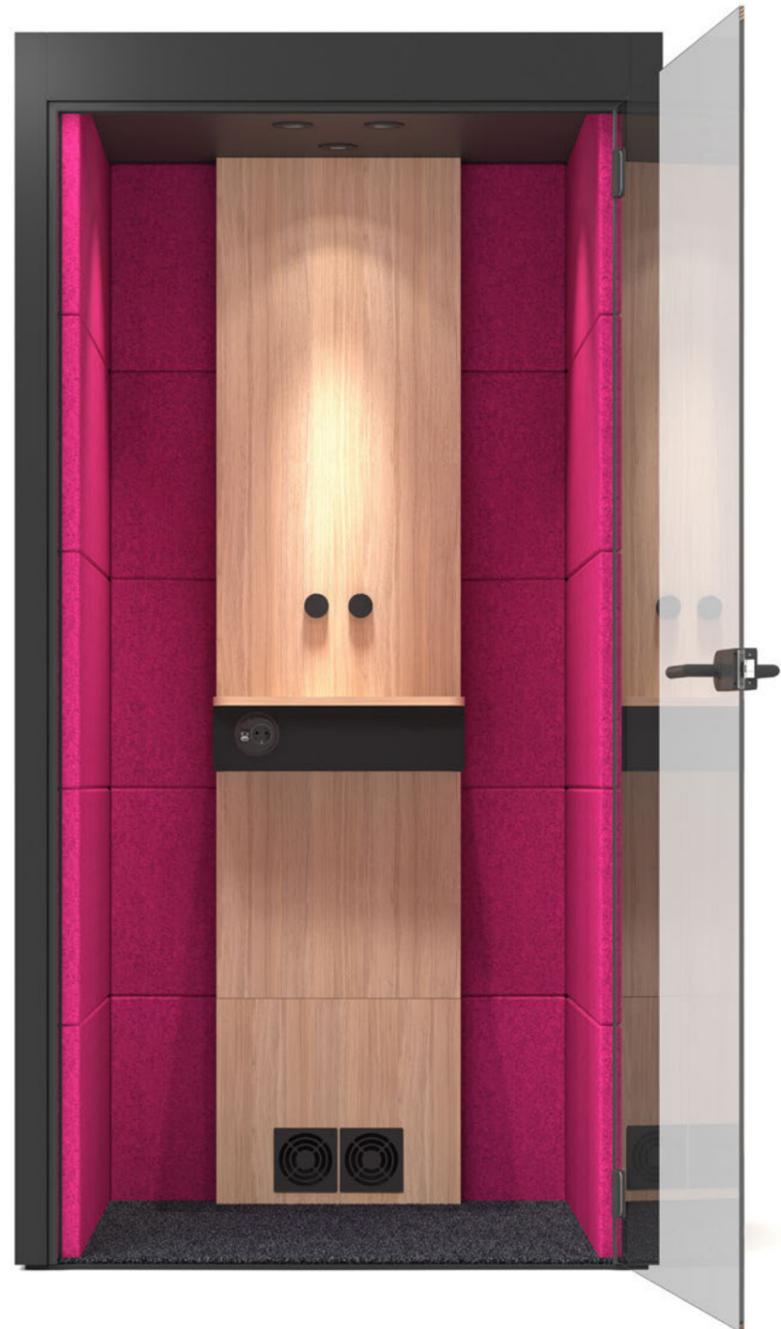

Multilayered SILENT ROOM wall structure, hermetic door and ceiling ensure sound insulation. The inner layer of the panels is made from high-class acoustic material that eliminates echo and has excellent sound absorption properties. The upholstered exteriors block out noise effectively and create an acoustically-optimized working environment.

Creative freedom to customise your design

SILENT ROOM offers a variety of design options for you to be able to create a personalised design and desired office mood. The interior and exterior finish can be selected separately. Both melamine and upholstery can be used for the exterior panels.

A powerful ventilation system installed at the floor level and in the ceiling of the SILENT ROOM acoustic pod efficiently removes excess heat and high levels of CO₂ concentration. A smart control unit selects an optimal ventilation and illumination level, and, if necessary, allows for individual adjustment. Once an employee leaves the SILENT ROOM, intense ventilation is automatically activated to prepare the room for the next user.

122

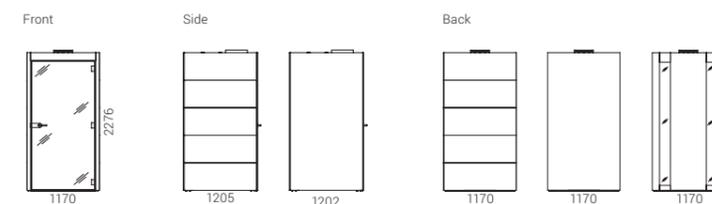

SILENT ROOM

123

SILENT ROOM

ACOUSTIC PODS

SILENT ROOM is easily adapted to a variety of activities. The acoustic pods come in three different sizes with selectable options such as glass back-wall inserts, high or standard tables, seating, monitor holders, etc.

For users' convenience, the room can be equipped with a power outlet (USB type A and C connectors) or 3-plug power block. The power block can come with in-built sockets, LAN or USB ports in various configurations.

132

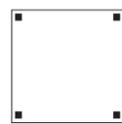

MODUS acoustic panels will improve your working environment and workplace well-being by absorbing background noise and by creating acoustically private spaces as well as bringing character to the interior space. The acoustic panel system includes wall panels, ceiling (horizontal) panels, and ceiling (vertical, double-sided) panels.

The panels come in different sizes, as large as 1200x1200mm, and are very easily joined together. The panels contain a special patented and certified material designed to efficiently absorb sound.

Double-sided (vertical) panels

Wall panels

Ceiling (horizontal) panels

You can choose acoustic panels with different fabric colours on each side to create your own unique interior design. Select from from six different sizes and mix and match different panel depths (40 or 70 mm).

MODUS Light

134

Acoustic comfort in open-plan offices

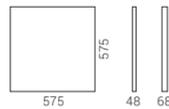

MODUS Light are lightweight, sound-absorbing wall and ceiling panels that improve office acoustics and serve as an inspiring and functional interior solution.

Panels are made of acoustic foam offering class A (for a 68 mm panel) or class C (for a 48 mm panel) sound absorption.

Thanks to their lightweight design, these acoustic panels are easy to transport and easy to install. MODUS Light are available in three design options: wall and ceiling panels, hanging panels, and Armstrong ceiling panels (integrated or hanged on a wire rope). The panels have multiple different fitting options and can be attached to a number of surfaces, even glass.

Implement your creative ideas by using acoustic panels of three different sizes and two different depths. You can also choose from our wide range of fabrics and a variety of colour options.

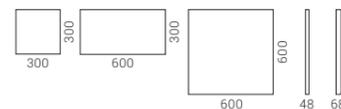

Acoustic panel with metal fittings
to be fixed to suspended ceiling
"Armstrong"

Wall panels

Ceiling (horizontal) panels

Privacy and comfort at the workplace

Height-adjustable or fixed-height MODUS acoustic desk screens will offer both privacy and sound absorption sheltering users from general office noise.

136

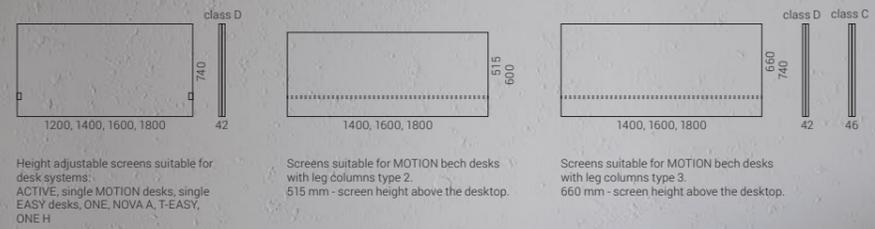

MODUS

MODUS acoustic desk screens are double-sided. Thanks to this construction, you will be able to choose a combination of two different colours.

Height-adjustable screens will allow you to adjust the height of these acoustic screens by releasing and tightening the metal holders. Choosing a fixed-height will ensure a uniform look of the workspace even with one employee standing and another sitting at the desk.

The screens provide Class D sound absorption. Class C sound absorption is available for MODUS desk screens specifically designed for our MOTION two-desk benches.

MODUS

DESK 760

Privacy without isolation

The DESK 760 acoustic panel system improves visual and sound comfort of the workplace without separating team members from one another thus allows them to communicate freely. The system offers screens to cover all sides of the desk. Thanks to a wide range of colour options and functionality, these panels work well in various spaces.

138

DESK 760

Screens suitable for desk systems:
NOVA U, NOVA H, NOVA A, NOVA O, EASY,
T-EASY, ONE, ACTIVE, AIR, NOVA Wood
(Melamine; only single desks)

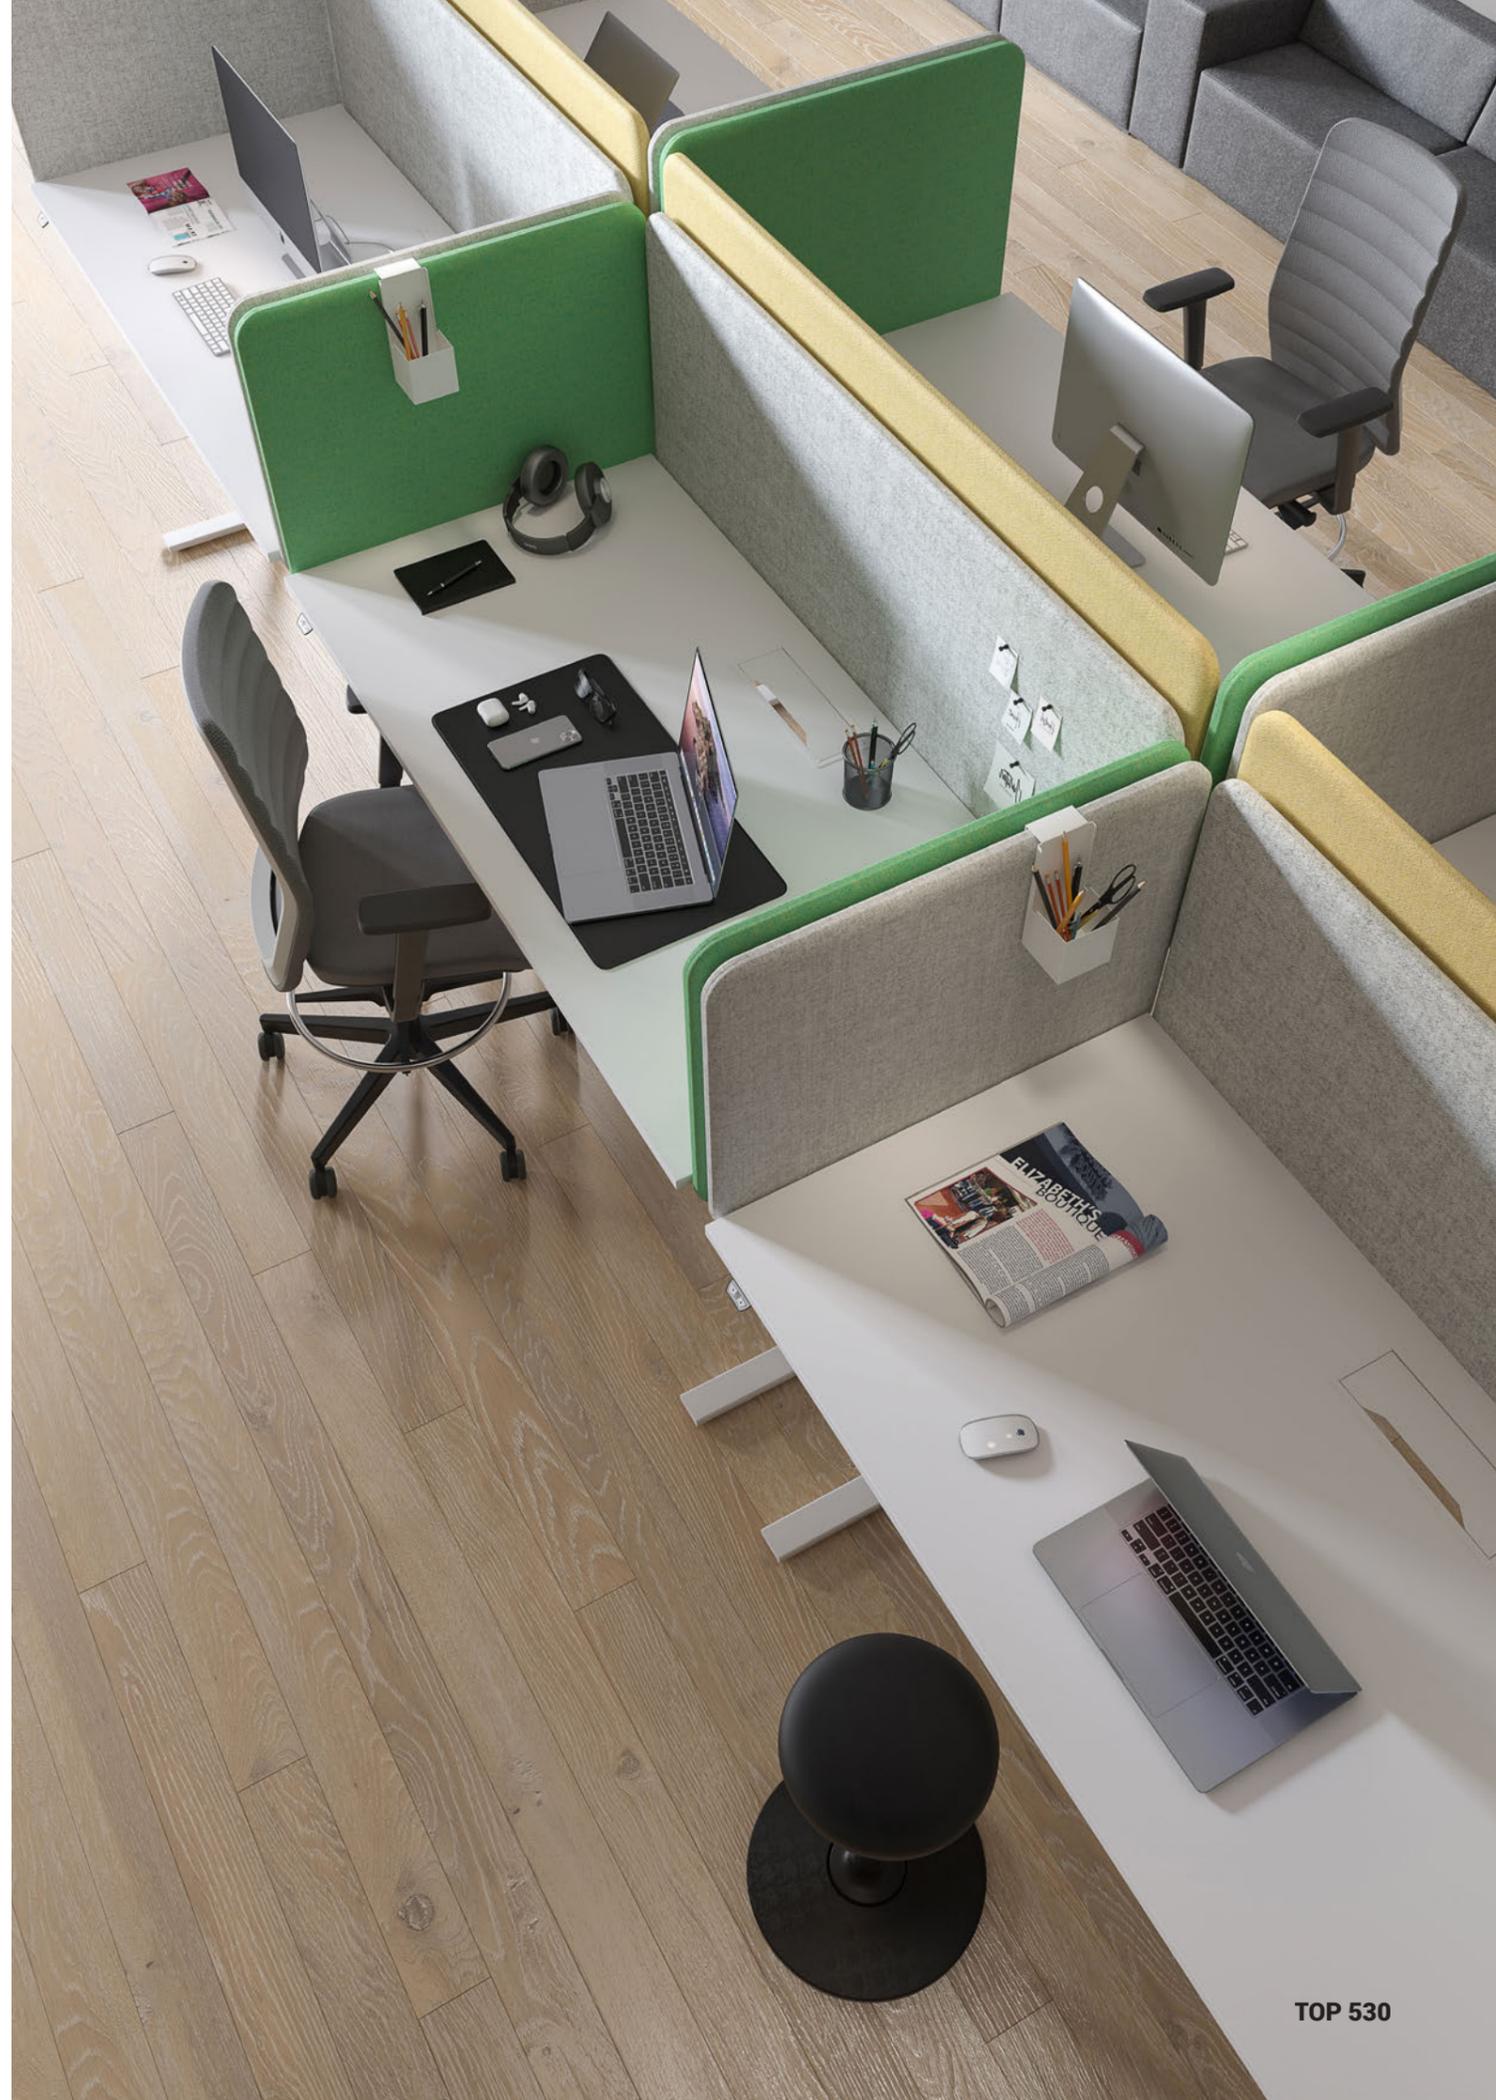

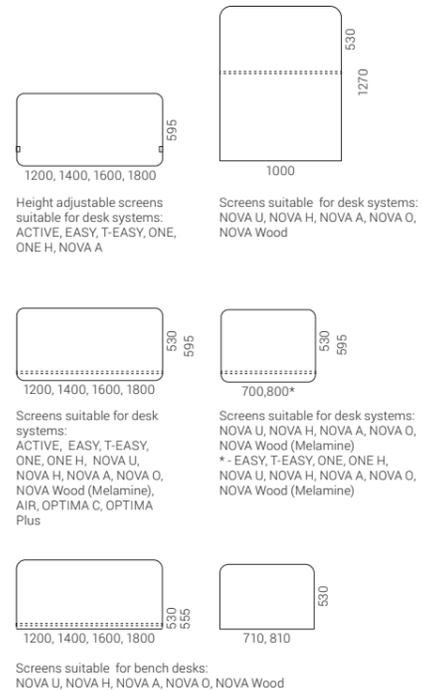

DESK 760

Acoustic comfort and privacy at the workplace

TOP 530 acoustic desk screens add privacy to your workplace and absorb background office noise. This solution enables employees to better focus on their tasks yet still allows communication and doesn't separate team members from one another. The system offers screens to cover all sides of the desk.

Because of the sound-absorbing material TOP 530 acoustic desk screens have a class C rating for sound absorption. The screens are perfect for both single desks and bench desks and come in a variety of colours and materials to match any interior.

140

“

We felt the need to give this product a decisive character – an element defining its identity. Thus, we came up with an idea to create a back support made from a transparent and flexible material and to make it an anthropomorphic shape instead of a technical shape which would be pleasing to the eye and as clear as the wind blowing onto the sails of a ship or making leaves tremble.

Baldanzi & Novelli Designers

156

WIND family of chairs offers a combination of ergonomic features, functionality and unique design. Task chairs, high swivel chairs and visitor chairs designed for dynamic and efficient work and collaborative use are ideally suited for modern office spaces characterized by a unifying and unique WIND design.

158

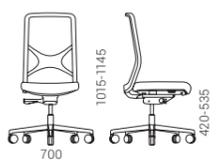

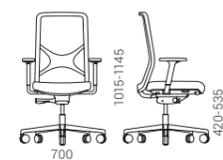

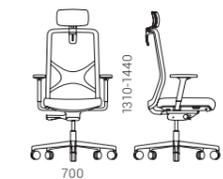

WIND

Unique lumbar support

WIND has an instantly recognizable X-shape transparent lumbar support uniquely designed to enhance the chair's visual appeal and serve a very important function. Its height can be adjusted and it conforms to the user's lumbar shape due to the elastic properties of silicone to provide exceptional comfort.

159

WIND

3 types of backrests

The backrest with a flexible mesh easily adapts to the natural shape of the user's spine. The aesthetic breathable mesh material ensures all-day comfort, no matter what seating position you use.

Fabric / leather look

The upholstered backrest is shaped with the principles of ergonomic seating in mind to ensure maximum workplace comfort. Its polyurethane insert with uniquely designed horizontal seams on both sides gives a totally different character to the chair. The backrest comes in a variety of upholstery options.

Micro-mesh

Choose a backrest with a unique knitted mesh created by an Italian design studio Baldanzi & Novelli designers. The mesh design pattern follows the X shape to further enhance the lumbar support that creates the WIND chair's identity. The knitted mesh is made using cutting-edge technology which allows us to manufacture chairs with seamless backrest corners so no scrap material is left behind.

Knitted-mesh

Simple and intuitive adjustments

WIND encourages an ergonomically correct sitting position and provides the functionality you need. Thanks to its simple and intuitive adjustment, the chair can be easily adapted to individual user needs and offers maximum comfort for long stints at the desk.

Stylish, modern and adaptable

NORTH CAPE design is a combination of simple but at the same time strict lines and soft curves. Rectangular armrests made of polyurethane fit the backrest harmoniously. Unique, laconic curve of the backrest fluently going down to the line of the seating part, creates a subtle silhouette of the chair, which has already become the identity of this chair.

164

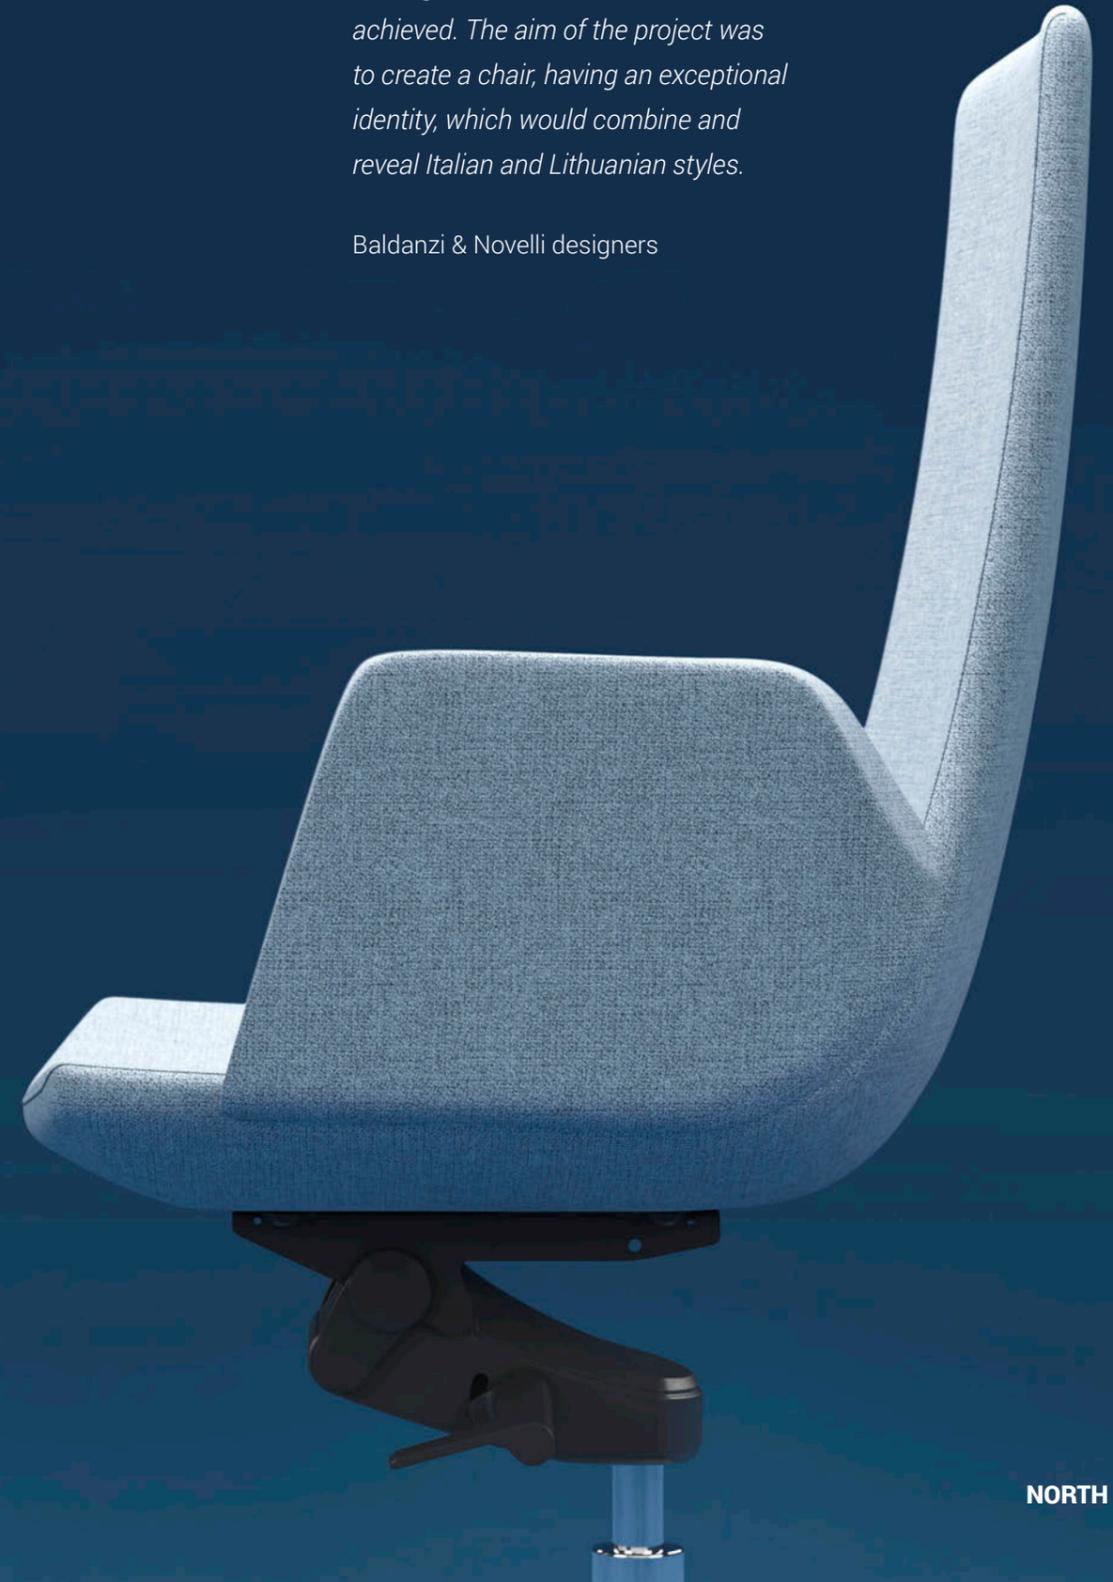

-  KNEE TILT MECHANISM
-  TENSION ADJUSTMENT
-  LOCKING POSITIONS

“

When two different cultures with the same goal meet, a wonderful result is achieved. The aim of the project was to create a chair, having an exceptional identity, which would combine and reveal Italian and Lithuanian styles.

Baldanzi & Novelli designers

Graceful style work chair

The chair's name EVA is a female name derived from the Hebrew name, meaning "life", may also have the meaning "lively". This is exactly what this task chair is, whose graceful shape is emphasized by the integrity of the backrest and seat.

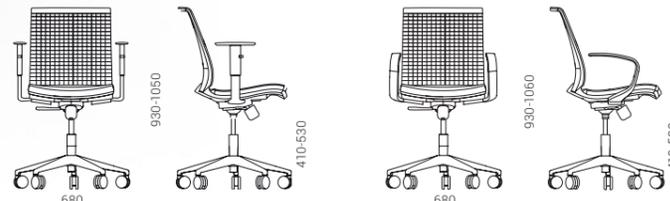

The EVA task chair has a tilting mechanism, it means that the backrest and the seat are connected, and when the backrest is reclined, the whole chair tilts. For the convenience of the user, the backrest can be locked in four different positions.

-  TILT MECHANISM
-  TENSION ADJUSTMENT
-  LOCKING POSITIONS
-  LUMBAR SUPPORT
-  ADJUSTABLE ARMRESTS

Easy to feel comfortable

The back of the chair with a light, breathable polyester mesh adapts to the curves of the back and ensures comfortable support and constant air circulation. A stiffer plastic mesh for the back provides more support. The model with height-adjustable lumbar support - even better adapted to the shape of the user's back.

Contemporary universal task chair

EVA.II's impetuous modern design, wide range of functionality and universal features make it a great choice for work environments both in the office and at home.

Your best office partner

The SWAY pivoting stool is a great choice for those looking for healthier sitting alternatives. It is a perfect active sitting solution for dynamic work and cooperation areas. The upper part of the stool swings and moves together with its user, so it can also be used as a support when standing. This allows you to change the position of the body at the workplace throughout the day without distracting from important tasks. Due to its modern and sleek design, this balance chair will fit into any contemporary office space.

180

Unique pivoting system

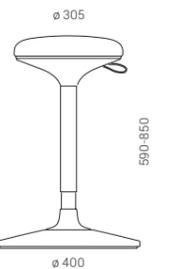

The distinctive feature of this chair is its unique pivoting system, hidden inside an elegant black plastic base. With the help of this system, the seat can be tilted up to 8 degrees in all directions and rotated 360 degree.

Easily adjusted and safe

A pneumatic lift mechanism lets you fine-tune the perfect level for different work surface heights. Adjustable seat height range from 60cm to 85cm, so you can smoothly adjust from sit to stand position in seconds by using an elegant brown leather strap. Having a non-skid surface, the base of the stool will always remain stable, while the high-quality materials will ensure safe and long-lasting use.

181

Significant functionality

The SWAY pivoting stool can be easily fit with to height-adjustable desks, as well as high, or conference tables. Due to its compact size, this chair is also perfect for different size SILENT ROOM acoustic rooms or small meeting rooms. The seat of the stool is made of polyurethane and can be upholstered in a wide selection of fabric, genuine leather, and leather look.

182

183

Design by Baldanzi & Novelli designers

Dynamic and flexible work setting

The standards of ergonomic in modern office spaces are constantly changing, just as our understanding as to what work environment is best for the performance and well-being of office workers. One thing is clear: it is important to change one's body posture throughout the day and avoid staying in the same position for extended periods of time. WIND high task chair is great because it can be easily adapted to a variety of work settings, whether it is a sit-stand desk, a high desk or reception furniture.

276

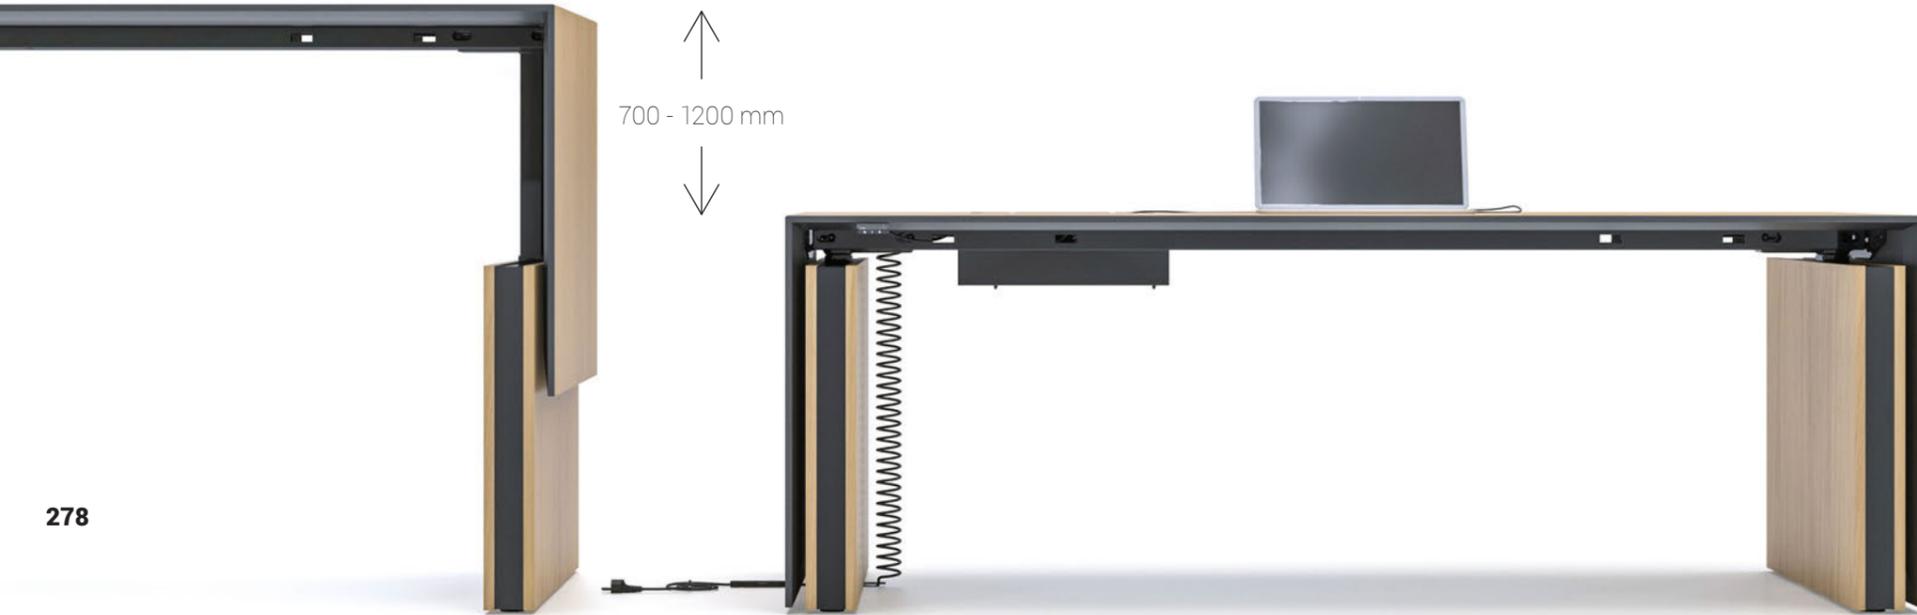

Modern sophistication

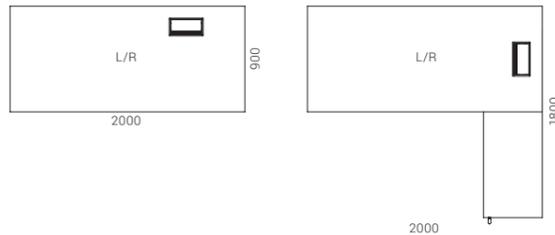

Panel legs hide the space under the desk giving more visual privacy. The feeling of elegance and sophistication is strengthened by the huge size of the top, which is designed for comfortable work. MOTION Executive can have even 36 colour combinations and allows you to create a desk which will suit your interior and personality best.

Easy to use

You can adjust the height of the desk by simply pressing the button or with a remote control application on your smart device. You can save the most comfortable positions and get a reminder to change your body position: to stand up or sit down.

278

Reveal your style and individuality

According to your needs, you can choose from two MOTION Executive models: Executive desk made of veneer is designed for those who appreciate naturalness. The top has a subtly chamfered edge, while side panel wraps the desk and makes it look more united and modern. MOTION Executive desk with melamine finish does not have a side panel and looks more simple and modest.

Obstacle avoidance system

MOTION Executive desk is integrated with a sensitive gyroscope-based anti-collision unit that senses both hard and soft obstacles.

279

Functional storing

The range consists of several pedestals of different sizes and drawers with or without metal file bars. An easily reachable drawer can be situated in the upper corner of the desk, it is convenient for storing your valuables and wcan be locked for safety.

A modern collection
of premium furniture

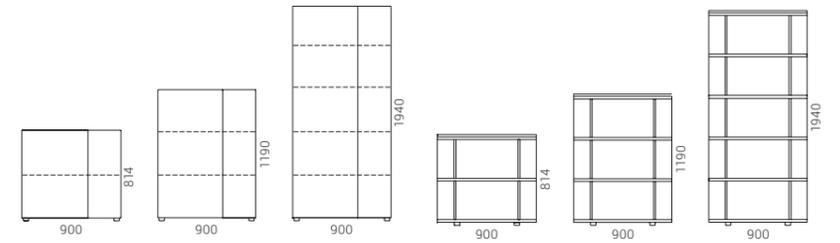

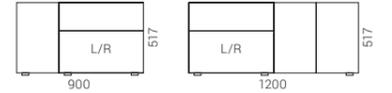

282

The Italian design of the tables is based on the harmony of straight and curved lines. The elegant three-part curved steel legs are crafted using advanced technology and are the ultimate distinctive feature of the system.

Wide range

PLANA tables come with an option of fixed or separate pedestals and many other different storage solutions, such as wardrobes or open shelf units. Modesty panels can be added for a higher sense of privacy, while a table extension can create a space to have meetings right at your desk.

283

Quality in the details

The tables come with soft closing grommet, beautifully framed in metal and concealing the box for wire management. PLANA storage features subtle accents such as different panel thickness combinations, lowered top panel.

Two thicknesses

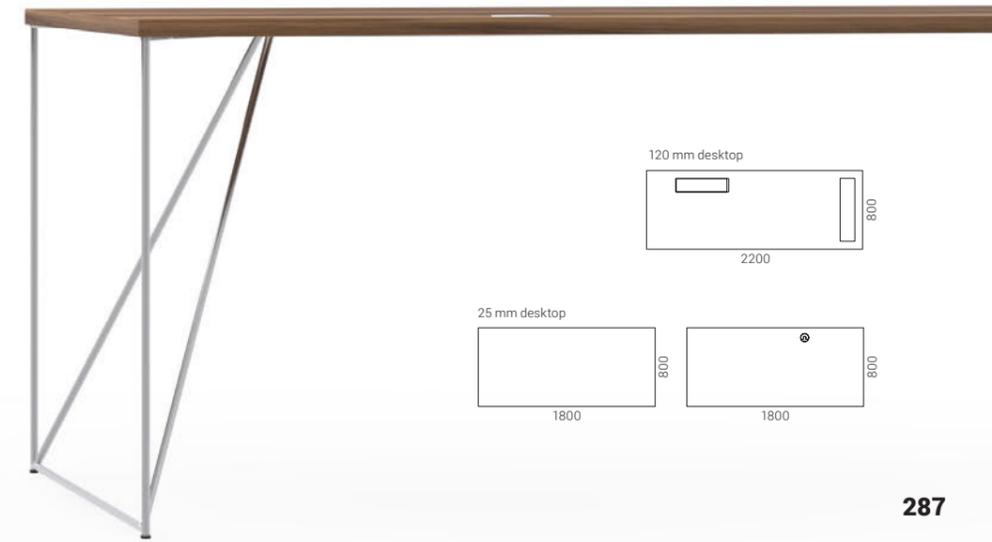

The tables are available in two different desktop thicknesses. The solid 120mm desktop gives the table an air of sophistication and will become the focal point of any office. The 25mm desktop is a universal choice for minimalistic offices, its pleasingly simple design will accentuate the unique structure of the legs.

286

Purity and elegance

The essential parts of AIR Executive is its solid natural wood veneer table top and steel legs that ensure not only the elegant feel of the table, but also its stability. The integrated drawers are lined with high quality natural leather.

287

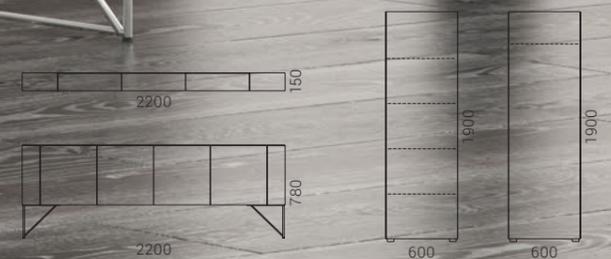

Hidden wiring

Steel table legs are designed in a way that hides all the cable wiring and allows you to keep all the unnecessary items out of your main workspace.

NOVA Executive

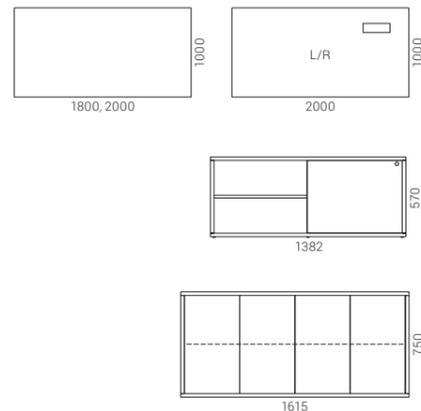

Versatile, intelligently designed solutions

NOVA Executive system's intelligently designed solutions allow you to create aesthetically pleasing yet very well-organized executive office space.

290

The Executive desks are available with two types of legs: regular U-shaped legs are a universal design solution that fits in any office while O-shaped legs are for those who want to add a modern touch to their space.

293

Minimalistic design

The strict lines of the ICE reception unit create an impeccable shape, suitable for both fancy and ascetic office interiors.

294

Depending on your vision for the interior, choose between a cozy melamine, or a luxurious veneer finish. Various front and top combinations are also available. Using the same finish on the top, base and front will create a solid and minimalistic reception unit, which will be as clean and smooth as ice. On the other hand, introducing a different-coloured top or decorative inserts will allow you to subtly reveal the elegance of this reception unit.

Ergonomic workspace

The ICE reception unit conforms to the needs of an ergonomic workspace and fits either one or two workstations – a perfect match for NARBUTAS sit-stand or fixed-height desks.

RECEPTION
FURNITURE

RECEPTION
FURNITURE

The rules are simple:
never stop creating!

DOMINO is a unique piece of furniture that will enable you to create a one of a kind design for your reception in just 4 simple steps. There are no two identical rounds in the game of dominoes, just like there are no two identical DOMINO pieces of furniture!

Easy way to create
unique reception
furniture

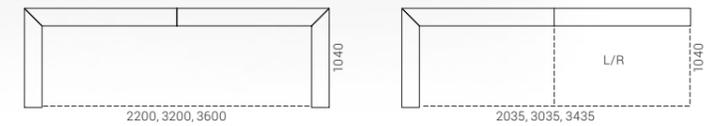

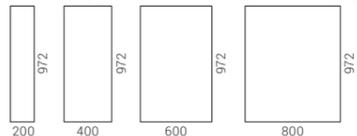

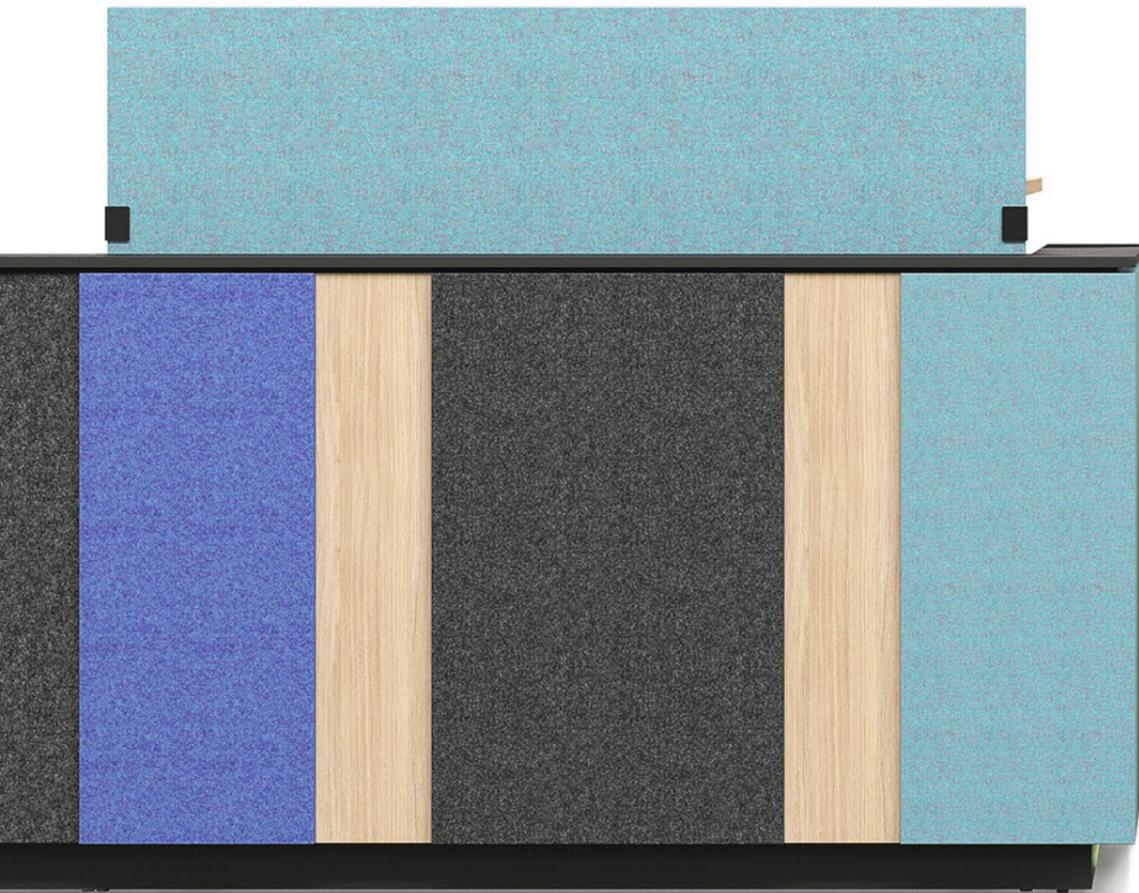

Firstly, choose the furniture base that suits you best from a range of nine different options. Secondly, combine two thicknesses of exterior panels (18 and 31 mm). Thirdly, choose panels in multiple colours and combine different coatings: upholstery, melamine and natural veneer. Lastly, create your own custom pattern using panels available in 200, 400, 600 and 800 mm sizes.

300

301

Cosy atmosphere and acoustic comfort

For your DOMINO setup, we recommend using MODUS acoustic screens which will allow you to maintain consistency in your interior style and provide employees with a sense of privacy.

Ergonomic workplace

You can create an ergonomic workplace using both regular or sit-stand desks which can be adjusted to a chosen height by employees.

Cable management solutions

DOMINO reception furniture has all the cable management solutions that are necessary for an ergonomic workplace. Electrical and internet cables will not get in your way and your desk area will be clutter-free and aesthetically pleasing to the eye.

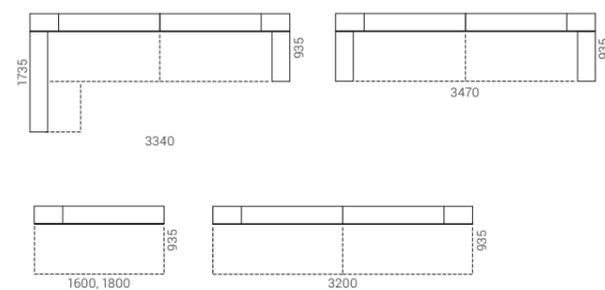

306

Varying forms

Our reception furniture sections are available in different forms. Choose a combination best suited for your office layout.

Decorative elements

NOVA reception furniture features nice acrylic glass inserts which add a playful touch to these pieces of furniture.

COSY

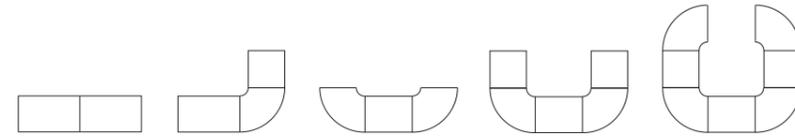

308

A clean, modern look with no sharp corners on the front side will create a friendly and cosy atmosphere for your visitors. A compact-looking reception is equipped with a 2000mm long table which provides plenty of working space and has many niches for storage. This product also features high-quality impact-resistant materials for better durability.

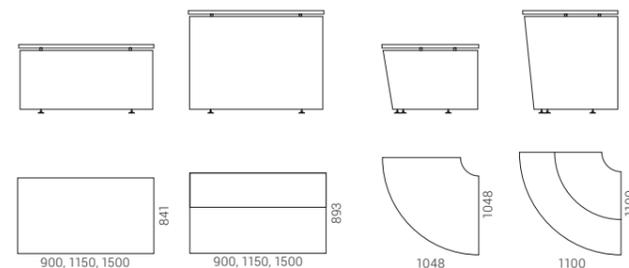

TERA

This modular reception furniture system offers modules in different forms and sizes and is ideal for reception areas of various offices.

Functional office niches

We invite you to look at the office niches with a creative perspective, use integrated furniture and make them functional.

312

The remote areas of corridors could be a great place for convenient and safe storing of the personal yet less frequently used belongings, also office supplies. Storage facade doors with openwork metal look subtle and light. There is a wide range of available combinations.

PET felt panels with great acoustic features not only absorb the noise but also can be produced in a variety of different shapes and colours, therefore they can definitely create an image adapted to a specific office interior.

Lounge area with the available coffee point right next to the usual workplace encourages natural collaboration between colleagues. Also, short breaks increase productivity.

Storage unit with integrated coffee, tea or even ice-cream machine is comfortable to use and looks neat.

Welcome area personalization

The welcome area requires a lot of customized solutions to form a unique brand image of the company. We can create a reception with compact HPL, metal openwork or even PET felt details upon your request.

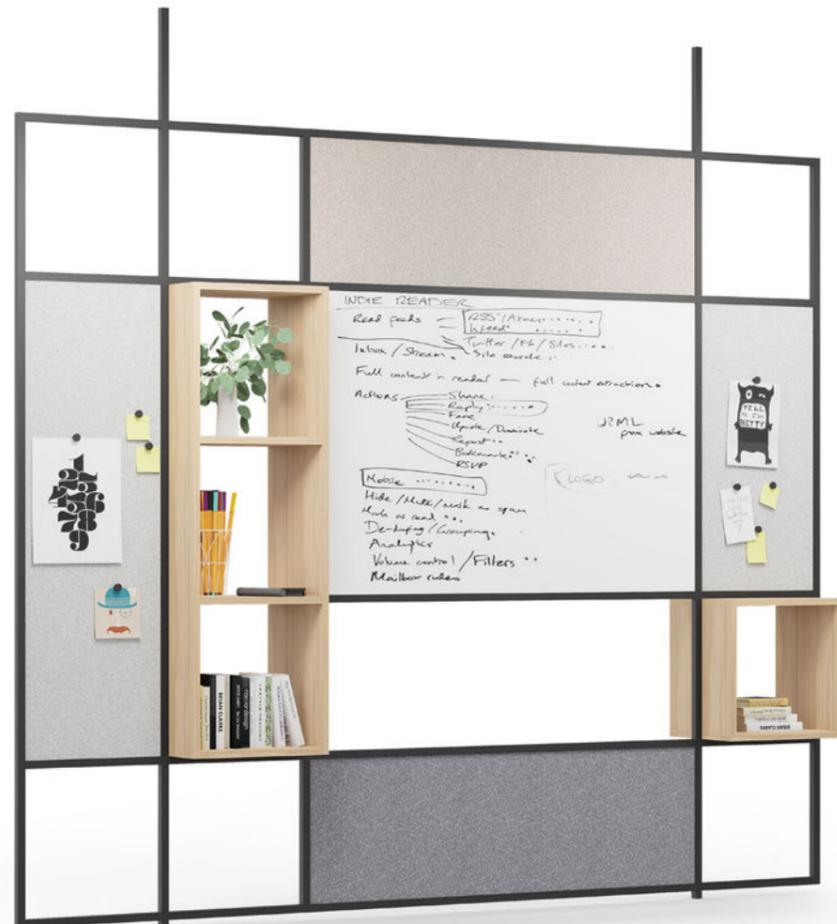

316

Office zoning solutions

We believe that office accessories should be functional. Plants are often used in modern interiors to create a pleasant atmosphere, clean environment for employees, but at the same time, greenery becomes a stylish office accent. Plant boxes with metal construction is a visually attractive practical solution for dividing the open space. Metal loft-style shelves and partitions is also a great solution to keep plants, books, and with added writing or magnetic boards can become a very useful tool for team meetings.
